I . PROGRAM OVERVIEW

■ Program Title: Master's Degree Program in Techno-Entrepreneurship Competency Based on EE & ICT Convergence

■ Duration

- Stay duration: August 5, 2019-January 4, 2021 (17 months of study in Korea including 2 weeks of pre-course)
During the 17 months in HGU, students are strongly recommended to complete their thesis.
- Academic duration: August 5, 2019-March 31, 2021 (19 months)
In accordance to the university regulations, the diploma will be issued in February 2021.

■ Degree: Master of Science in ICT convergence

■ Program Background

- The economic development model based on cheap labor has failed to lift developing countries from poverty or build their capacity in this digital information era. If the status quo were to prevail, the gap between developed countries and developing countries will only widen.
- EE and ICT convergence, which formed the basis for the fourth industrial revolution, provides opportunities for entrepreneurship and innovation, which could allow developing countries to make a quantum leap.
- The need to create more jobs and opportunity for growth through education and practical training in EE and ICT convergence is growing.

■ Objectives

- To train government and NGO officials from developing countries in the field of EE and ICT convergence to foster greater entrepreneurship and capacity building.
- To train domestic leaders in the field of EE and ICT convergence in a systematic and practical manner so that they can create policies and attract capital investments to their country
- To train government officials' problem-solving skills through a training in the field of EE and ICT convergence
- To share Korea's experience in the field of electrical engineering and ICT convergence and its industries as well as to raise mutual understanding between two countries

■ **Goals**

- Nurturing experts in the field of EE and ICT convergence so that they can lead economic development in their counties through the understanding of South Korea's EE and ICT convergence model for mutual benefits between two counties
- Building up networks of industry experts and investors so that they can form an effective partnership and support technological and economic growth between two countries

■ **Training institute**

Graduate School of Global Development and Entrepreneurship,
Handong Global University (Hereinafter referred to as HGU)

■ **Number of participants: 15 government officials**

■ **Language: English fluency that requires no translation.**

KOICA-HGU students earn credits for all specialized courses in English,
and write their graduation theses(academic papers) in English.

III. TRAINING INSTITUTE

1. GENERAL INFORMATION

1) Introduction of Handong Global University and Graduate School of Global Development and Entrepreneurship

Handong Global University (HGU) was founded in 1995 and it is located in the rolling hills of the eastern coast of Pohang, Korea. Perched atop a hill, covering over 200 acres, the campus looks out over both the East Sea, and the western Pacific Ocean with a small lake bordering the east side of the campus.

Since its foundation, HGU has been promoting the globalization of education and its campus under the slogan “Why not change the world?”. Our vision is to show love towards our neighbors and to change the world by maximizing both students’ and professors’ talents. HGU has uniquely contributed to the advancement of undergraduate education by creatively using global human resources for a holistic education that develops both character and knowledge. In addition, HGU has been drawing attention with its innovative educational curriculum that advances the 21st century’s requirement of learning and problem - solving in a globalized era.

Competency is strengthened not with knowledge-delivery education styles or teaching by rote memorization but with practical education that guides students in solving problems. HGU helps students build their competencies through project-based courses and nurtures well-balanced talents that play an important role in the world.
