Why TAIWAN?

Why Taiwan?

International Students' Perspectives / Reasons

1

Why Taiwan?

Taiwan has an outstanding higher education system that provides opportunities for international students to study a wide variety of subjects, ranging from Chinese language and history to tropical agriculture and forestry, genetic engineering, business, semi-conductors and more. Chinese culture holds education and scholarship in high regard, and nowhere is this truer than in Taiwan. In Taiwan you will experience a vibrant, modern society rooted in one of world's most venerable cultures, and populated by some of the most friendly and hospitable people on the planet. A great education can lead to a great future. What are you waiting for? Come to Taiwan and fulfill your dreams. There are many reasons international students will find Taiwan an exciting and rewarding place to pursue their education.

We ask international educators from three major international educators' conferences (APAIE, NAFSA and EAIE) about the most determinant reason for foreign students to study in Taiwan:

The Reasons Why I Chose Taiwan

Let's listen to what international students say on "Why Taiwan?"

Taipei Medical University

Sharoon Lungile Hlatshwayo

I had my bachelors in Africa so when I decided that I needed to enroll for a master's I told myself it had to be out of Africa because education is not only inside classrooms but also in the streets. I needed to know how health is administered in other continents and I believed that would broaden my thinking. I started searching around for universities, initially I wanted to do business administration but I realized it would place me in a disadvantage in terms of employment upon completion but Taiwan was the only university which offered MBA specifically in healthcare, the moment I got my hands on that information I knew I had to come to Taiwan, but finances were the next challenge to face. Taipei medical university was also offering scholarships; Taiwan had diplomatic relationships with my country, so I knew I wouldn't be alone in Taiwan, for that reason I had to choose Taiwan. I'm glad I did.

Jung Yop Ryu

I came to Taiwan for a half-month trip in 2010. I felt Taiwan was like my second home country. That was the first impression of Taiwan and I started to fall in love with Taiwan. Now all Taiwanese friends call me Uncle Ryu, who loves Taiwan from Korea. There are some similarity between Korea and Taiwan in history, economy, culture and ideology terms. During the first trip to Taiwan, I was able to meet friendly and decent people when I was in difficulties. Also I saw and enjoyed beautiful sceneries in Taiwan understanding why Taiwan is called as "Ilha Formosa." Especially, Tainan gave me huge inspiration as the first capital city of Taiwan with well-preserved relics and historical attractions. That was fully enough to encourage me to come to Taiwan for the degree.

Name of University

in Taiwan

National Kaohsiung University of Hospitality and Tourism

I chose to study in Taiwan for many reasons. Firstly as the National Kaohsiung University of Hospitality and Tourism has a good reputation and offers subject matter similar to that of my home university.

Secondly, I was curious as to how New Zealand and Taiwan would compare, in terms of academic work, student life, and the country and culture as a whole.

Finally, as this is my final semester in university study, I felt that if I didn't take the opportunity to undertake this exchange it would have been a "what if..." moment, and would have been an opportunity that I would have regretted not taking advantage of.

Leah Olesen

When I decided to come to Taiwan, I had two main reasons:

First, to learn Chinese! I got my bachelor in Mechanical Engineering back in my country, then I decided to switch to business, and where better than Taiwan? Studying and learning Chinese beside! So I can do business when I go back to my country more easily as I know one of the most important languages on the world.

Second, I found MTM program at National Chiayi University. In this program, they have international scholars and all of them very famous around the world, so I have great opportunity to learn and gain more experiences from them. Learn about different cultures, and learn how to do business globally.

I chose to study in Taiwan for many different reasons. In the business world, Chinese as a language is of vital importance. After living in Taiwan for two years as a missionary, and after living in China for one year working, I knew that China and Taiwan held a future for me and I needed to begin preparing. I never thought I would get an international education, but that's what ended up happening. I am confident that pursuing a degree in Taiwan will help me to better understand the culture of business that will be essential in my future career.

First of all thanks, Taiwan is a very interesting place now that I am here. Ever since in my country several of my friends came to study here and spoke marvelous stuff. I was so inspired by what they came to explore and encounter and decided to come and experience it.

On my research of Taiwan, I enjoyed the view and technological advancement achieved. I was so amazed of the culture and the welcoming of foreigners to integrate in your growth. Taiwan has been a great help to our country and is admirable to note that, being as small as it is, yet hosts great things and also delivers great things. The statistical view of persons with tertiary education is amazing since the government has been ensuring that education becomes a priority.

Thank you Taiwan!!!

First and foremost, Taiwan provides an outstanding education system that gives opportunities for international students to study a wide range of courses. Furthermore, Taiwan is populated with friendly and hospitable people and allows us to experience the vibrant, modern society rooted in one of world's most venerable cultures. The most important thing is that Taiwan's infrastructure is advanced, and its law enforcement and transportation, communication, medical and public health systems are excellent, gives us a safe and comfortable environment best suited for study.

I chose Taiwan because your country is not just a beautiful island with friendly citizens but also the high standard education system. To be honest, I really hope that I can gain state of the art knowledge when I decide to study in Taiwan. Moreover, the culture in Taiwan and in Vietnam in some extent is similar so I do not have to face culture-shock when I study in Taiwan. Hence, I do not have lost a lot of time to get used to with the new custom and habit. Consequently, I can concentrate on studying. Last but not least, learning Mandarin is also my driving force to study in Taiwan.

Fascinating Taiwan

We welcome you to our friendly island paradise!

Taiwan is a modern, free, democratic society whose people are hardworking, fun-loving, educated and friendly. While eagerly embracing the future, the people of Taiwan hold onto traditional values and ideals. The family, including ancestors, is of utmost importance; education and scholarship are held in high esteem. Traditional forms of writing, architecture and art are part of everyday life. Yes, in Taiwan the ancient and modern, traditional and new are seamlessly woven together, creating a fascinating, dynamic society like no other in the world.

The “beautiful Formosa” you are pursuing...have you ever wondered what it would be like?

History

The name "Taiwan," meaning "terraced bay," was first used in 1430 by Admiral Cheng Ho of the Ming court. In the 16th century, the Portuguese named the island "Ilha Formosa" meaning "Beautiful Island." The name Formosa was used until the end of WWII.

Situated between northern and southern Asia, Taiwan has long played a crucial role in trade and politics. Taiwan's location brought frequent invasions, but also provided the conditions needed for a modern, prosperous and democratic country.

Climate

In subtropical, northern Taiwan, the temperature during the cool, mild winters averages 18°C / 64°F. The average temperature rises to 31°C / 88°F during the hot, humid summers. Southern Taiwan has a tropical, marine climate with generally warm and relatively dry weather.

In the mountains, temperate conditions prevail. Snow may accumulate on some of the highest peaks, such as Yu Shan and Ho-Huan Shan. Rain may fall at any time, but the greatest amount usually falls from April to August. Typhoon season is from May to September.

Geography

Taiwan lies along the western edge of the Pacific Ocean, 193 km (120 miles) off the southeastern coast of mainland China. Taiwan has a land area of about 36,000 square km (14,400 square miles) and is nearly bisected by the Tropic of Cancer. The island is shaped somewhat like a sweet potato.

Taiwan has broad plains, rolling hills, and precipitous mountains that form the spine of the island. There are six peaks over 3,500m - the highest is Yu Shan at 3,952m - and more than 200 peaks over 3,000m. Swift rivers have carved steep gorges through the mountains. Taroko Gorge, with vertical rock walls hundreds of meters high, is a wonder of nature. Geothermal activity has produced many hot springs in mountains.

Due to the abundant rainfall and generally warm temperatures, vegetation grows rampantly in Taiwan, from lowland agricultural crops to all manner of plant life cloaking the hills and mountains. Due to its unique climate and geography, the flora and fauna of Taiwan are tremendously diverse, and many species are endemic to the island.

Culture

The culture of Taiwan is a blend of modern and traditional, national and international, unique and universal. Due to Taiwan's complex political history, the influences of indigenous culture, Confucianism, Japan, and Western civilization all can be seen at the same time.

The Japanese occupation of Taiwan from 1895 to 1945 influenced language, culture, and architecture. Visitors can still find a Japanese-style mansion and hear old Japanese songs emanating from nearby taverns.

Taiwan's aboriginal culture is unique and has started to flourish since the Ami chant "Jubilant Drinking Song" was sampled in a song to promote the 1996 Olympics. However, the dominant culture in Taiwan is still Chinese. Immigrants from mainland China, especially those who arrived in 1949, after civil war, brought Confucianism and Chinese culture to Taiwan. The National Palace Museum has an outstanding collection of 650,000 pieces of ancient Chinese artifacts brought from the Forbidden City, making it a major attraction for visitors. Visitors also will see ornate temples and traditional Chinese characters.

Cuisine

In Taiwan, where it seems the people live to eat, it is said that there is a snack shop every three steps and a restaurant every five. Foods and dishes from around the world are available in Taiwan. However, Taiwan's native cuisine, which has gained worldwide attention, is unforgettable - try it just once and you will remember it forever. Memorable dishes include: Pearl Milk Tea, Danzai Noodles, Shrimp Pork Soup, Oyster Omelet, Meat Rice Tamales, Stinky Tofu, Taiwanese Meatballs, Coffin Sandwich, Veggie and Meat Wrap, Oyster Vermicelli, Steamed Sandwich, and Crushed Ice Dessert.

In my opinion, learning Chinese is necessary for foreign students who live in Taiwan, even all classes are taught in English. Because we may make friend more and we would have good opportunities to explore Chinese culture or Chinese people as well. I think they are very interesting experiences.

07:00	Breakfast and then leave for school! I always have breakfast because it is good for my health. I often meet my advisor at 7:30 or 8:00 for my presentation about my researches. Then I come back my Lab or go to class.	13:00	Sleeping time I often sleep for one hour at noon.	17:30	Doing exercise! I like jogging or playing soccer. So this time is the happiest time of mine.
12:00	Lunch time! A moment to relax and talk with some my friends together.	14:00	Research time or class time Time to be occupied with research work. Try to search and gather as much as possible information relevant to my research. And the time for class, sometimes.	19:00	Dinner time and relax once more
				20:00	Research continues at Lab It is research time indeed. But sometimes I am online to meet my family or friends.
				00:30	Bedtime

 Swaziland | Nonhlanhla Lukhele

- Degree student
- Food and Beverage Culinary Arts
- 1st year
- Chung Chou University of Science & Technology

Studying in Taiwan is an adventure and an intellectual growth experience for me. I am impressed with the education system, the professors are well educated and that gives me confidence because I learn so much from them. I love the fact that my school has all the facilities for each and every department which makes it more interesting because I get to learn the technicality of culinary art. What has been impressive again is that the school has groups of different activities for student to have interaction with each other and I think that helps foreign student to improve in their Chinese learning.

08:30	Breakfast and go to school!! On Mondays and Thursdays I have my breakfast and then go to class because I have morning classes. Tuesdays, Wednesday and Fridays I don't have morning classes so I usually have breakfast then review my previous lectures and prepare for next lectures that I have after lunch.
17:00	Do some exercise Tuesday, Wednesday and Friday I usually go to the gym and then go back to my room and refresh. I then have my dinner at 7.30pm.
19:10	Class (Monday and Thursday): Because I have late classes that end at 7pm, I usually go to the gym at this time and come back, freshen up and have supper.
21:00	Study I read, review my days work, browse the internet or watch a movie sometimes to relax.
23:00	Bed time

The Educational System of Taiwan

Overview

The people of Taiwan are very well educated, literacy is about 96%, and students from Taiwan score very high on international tests. These achievements are the product of cultural and societal values that hold education in high esteem, and the comprehensive educational system created to achieve Taiwan's goals of becoming a well-educated, economic and technological powerhouse on the world stage.

Two years of pre-school education, including kindergarten, are optional. However, most children in Taiwan attend at least one year of pre-school.

Formal schooling begins with 9 years of compulsory education, starting with 6 years of primary school followed by 3 years of junior high school. Following junior high school, students may go on to 3 years of senior high school or vocational school, or begin a 5-year junior college program.

Higher education in Taiwan includes 4-year bachelor's degree programs and 2-year junior colleges. After that, students may advance to master's degree programs, which typically take 1-4 years to complete, and 2-7 year long programs leading to a Ph. D, M.D. and other advanced degrees. Completion times are flexible, depending upon the needs of the students.

♦ See chart on the right hand side as the educational system of Taiwan

Compulsory Education

Since 1968, students in Taiwan have had 9 years of compulsory education, comprised of 6 years of elementary school and 3 years of junior high school. Students usually start first grade at age six. At the end of junior high school, students take another set of exams to qualify for different senior high and vocational schools.

Senior High and Vocational School

After graduation from junior high, there are two types of institutes for continuing students: senior high school and senior vocational school. Both take 3 years to complete.

Specialized Training

Specialized training beyond the secondary level is provided by 5-year junior colleges, which accept students directly from junior high schools and focus on applied sciences and technology.

Higher Education

The higher education system in Taiwan includes 2- and 5-year junior colleges, technical colleges, liberal arts colleges, 4-year universities, and graduate programs.

Most university undergraduate programs take 4 years to complete. Extensions of up to 2 years will be granted to students who are unable to fulfill their requirements within the designated time. Specialized undergraduate programs, such as dental school (6 years) and medical school (7 years), take longer to complete.

Universities and colleges in Taiwan offer a wide variety of master's and doctoral degree programs. Graduate programs leading to a master's degree take 2 to 4 years to complete, while doctoral degree programs take 2 to 7 years. If a student who enters graduate school as part of on-the-job training fails to finish the required coursework or complete a thesis, the student will be granted an extension.

Note

Most higher educational institutions in Taiwan set the academic year to begin from August to September of the following year. Every academic year has 2 semesters: the first semester (August~ January) and the second semester (February~ July). There are 2 holiday seasons: the winter vacation (January~ February) and the summer vacation (July ~ August).

Choosing a School & Applying

Choosing a School

A wide range of schools and universities welcome international applicants. Applicants can choose a school based on their personal interests and the courses offered. A list of universities and colleges, both public and private, can be found at the website “Study in Taiwan”

♦ See P.82-P.87 for the list of universities accepting international students in Taiwan

Procedure

- 1 Make sure you are eligible to apply as an international student
- 2 Make sure you've done research about programs of your interest
- 3 Make sure the program you intend to apply is open to international students
- 4 Make sure you are well aware of and meet all the requirements from individual schools
- 5 Make sure you fill in the application form correctly and have all the required documents
- 6 Make sure to send the application package in time
- 7 Make sure you've received an admission letter. You'll need it when applying for a visa and registering

Note

Choose Your School and Course

Study in Taiwan Website | www.studyintaiwan.org
Education in Taiwan Website | english.education.edu.tw
Ministry of Education, Taiwan | english.moe.gov.tw

Tuition

Students who intend to study in Taiwan should note that tuition fees vary at different schools. The tuition fee at private universities usually higher than at public universities. The tuition fee may also vary from program to program within a university. The following is a brief summary of tuition fees in 2012:

Public / Private

- Field | Science, Engineering and Liberal Arts
- Period | Per semester
- Tuition Fee | **Public**, NTD 25,000 - 30,000 (About USD 840 - 1,000)
Private, NTD 46,000 - 54,000 (About USD 1,540 - 1,800)

*(USD1 = NTD30)

Apply for programs of your interest!

Choosing a Chinese Language Center

Taiwan is an ideal place for international students who want to learn Mandarin, the official language of Taiwan. In Taiwan, traditional characters are used, and learning them will allow students to fully appreciate Chinese language and to communicate, in writing, with people who speak other Chinese dialects.

♦ See P.88-P.89 for the location and websites of Chinese Language Centers

Tuition

36 Chinese Language Centers in Taiwan provide varies type of course, tuition fee also varies from every center. The following is a brief summary of tuition fees:

General Course

- Total hrs | 180 hrs or more
- Tuition Fee | NTD 25,000 - 65,000 (About USD 840 - 2,200)

Intensive Summer Course

- Total hrs | 80 - 240 hrs
- Tuition Fee | NTD 12,000 - 65,000 (About USD 400 - 2,200)

*(USD1 = NTD30)

Procedure

- 1 Decide to which Chinese Language Center you would like to apply
- 2 Determine the cost of studying at the Chinese Language Center, or centers, you are most interested in
- 3 Determine when applications are due and make sure the period of instruction fits your schedule
- 4 Complete your application
- 5 If you are accepted, you will receive a formal letter of admission

Application

Please note that each institution has its own requirement and standards to determine whether applicants are qualified for admission. Applicants found to be qualified through review or special screening test will be granted admission. Students shall show proof of medical and personal accident insurance or national health insurance at the time of registration.

♦ See P.19 for the submission document

Note

- Students who want to apply for undergraduate, graduate and doctoral program can submit their application all year round. The deadline for new semester submission varies from universities to universities, but it usually falls in March.
- Students who want to apply for Chinese learning courses can submit their application all year round, but Chinese language centers only receive application within the year. There are usually four terms of courses: spring, summer fall and winter.

Knowing the Schools

Universities and Colleges

The curriculum at most universities focuses on academic studies and research, while universities of technology focus on practical and specific skills training. Depending upon the requirements of each school, students with a distinguished academic performance could apply for promotion to a higher level. University undergraduate programs require four years of study; however, students who are unable to fulfill their requirements within the designated time, may be granted extensions, up to two years. Specialized undergraduate programs such as dentistry or medicine require six to seven years, including an internship period of one year.

Qualification for Admission

Graduation from senior secondary (high) school or equivalent

Documents for Submission

- Photocopies of the original diploma (If not in English or Chinese, student should give English or Chinese translations of the original diploma)
- Financial statement
- Statement of purpose
- Letters of recommendation
- Application fee
- Other documents as required by the universities and college

Qualification for Graduation and Completion

Graduation from senior secondary (high) school or equivalent

Practice writing calligraphy!

Documents for Submission

- Application forms
- Photocopies of the original diploma (If not in English or Chinese, student should give English or Chinese translations of the original diploma)
- Financial statement
- Statement of purpose
- Letters of recommendation
- Application fee
- Other documents as required by the universities and college

Graduate Schools

Students are awarded a master's degree upon completion of their postgraduate study.

Master's programmers usually require 2 to 4 years of study ; and a doctorate program (PhD) requires 2 to 7 years of study.

Qualification for Admission

- Master's Program
 1. Graduation from undergraduate program or equivalent
 2. Pass the master's degree program entrance examination
- Ph. D. Program
 1. Graduation from master's program or equivalent
 2. Pass the Ph. D. entrance examination

Qualification for Graduation and Completion

- Master's Program
 1. Earn required credits, produce thesis and pass a final examination
 2. For master's degree programs in the arts, applied sciences and technology, the thesis may be replaced by an exhibition or performance plus a written or technical report
- Ph. D. Program

Earn required credits, pass the Ph.D.candidate qualification test , produce a dissertation, and pass the oral examination

Chinese Language Center

There are 36 Chinese Language Centers located at colleges and universities throughout Taiwan. Offering classes year-round, these learning centers provide a variety of courses for students of all levels of proficiency. The instruction and teaching materials are top-notch and are designed to help students achieve their language goals. Outside of class, students will have innumerable opportunities to practice reading Chinese characters and speaking Mandarin with the friendly citizens of Taiwan. Imagine being able to practice what you have just learned with native speakers on campus, in coffee shops, convenience stores or dance clubs! With its blend of tradition and modernity, Taiwan truly is an ideal place to learn Mandarin!

Documents for Submission

- A completed application form
- A copy of your passport
- An original copy of your personal financial statement, valid within the last 6 months. The requirements for this statement will be specified by the center
- Diploma/ admission letters (varies from center to center)
- Research proposal (varies from center to center)
- Two to four 1 x1 inch photos (check the website of each learning center for details)
- Insurance certificate
- Application fee

Taiwan is an ideal place to learn!

International Programs

The list below shows the international programs offered by the universities which reviewed by FICHET and HEEACT (Higher Education Evaluation and Accreditation Council of Taiwan). Group A shows the programs that over 90% of the lessons are taught in English, and Group B shows the programs that 75-90% of the lessons are taught in English. Programs in group C offers 50%-74% English taught lessons, Programs in group D offers programs taught below 50% in English, while Programs in group E offers lessons taught only in Chinese.

Visa & Arrival Information

Visa

Students applying from abroad, who have received formal letters of admission, should apply at local or the nearest R.O.C. embassy, consulate or representative agency for visas to enter Taiwan. Students may be issued a visitor or a resident visa, depending on the length of their study program. Students admitted to a degree program will need to apply for a resident visa. If you intend to stay for more than 6 months for study, you should apply for a resident visa.

Required Documents

You will need the following documents:

- One copy of completed application form with two passport-size, color photos taken within the last 6 months
- A passport valid for no less than 6 months and a copy of it. (There should be enough empty pages in the passport)
- School-issued enrollment certificate
- Proof of financial support, and other relevant documents
- Application fee

Note

If your spouse and children are coming with you, please bring along a notarized marriage certificate and birth certificates for the application

Further Information about Visas

Visitor Visa

Foreign nationals who hold valid passports or other legal travel documents, and who intend to stay in the Republic of China (Taiwan) for less than 6 months, may apply for a visitor visa. Students holding a visitor visa who wish to stay more than 6 months should apply to change to a resident visa at the Bureau of Consular Affairs, Ministry of Foreign Affairs (MOFA).

Resident Visa

Foreign nationals who hold valid passports or other legal travel documents, and who intend to stay in the Republic of China (Taiwan) for more than 6 months, may apply for a resident visa.

Visa Extension

Students who hold a visitor visa and wish to stay less than 6 months are not required to change their visa status. However, if they intend to stay beyond the visa expiration date, they do need to apply for visa extensions through the National Immigration Agency before their visa expires.

Alien Resident Certificate (ARC)

Resident Visa holders are required to apply for the Alien Resident Certificate and Re-entry Permit at the local office of The Immigration Agency within 15 days after their arrival. They may stay in the R.O.C. as long as the Alien Resident Certificate remains valid.

Required Documents

You will need the following documents:

- A completed application form
- Passport with Resident Visa
- Student ID card or Enrollment Verification (original and copy). Overseas Chinese students who are first-time petitioners shall submit a notification of enrollment. They will be issued a 30-day ARC by the National Immigration Agency. To extend the ARC, a student ID or enrollment verification will be needed
- One passport-sized color photo taken in the past six months
- Student ID (original and copy)
- Application fee
- Health certificate/within 3 months

Arrival Information

There are two major international airports in Taiwan. They are Taiwan Taoyuan International Airport, in Taoyuan county (about 40km from Taipei city), and Kaohsiung International Airport, located in southern Taiwan. Most international flights land at Taiwan Taoyuan International Airport. From Taiwan Taoyuan International Airport, students can take long distance highway buses to major cities, such as Taipei, Taichung and Kaohsiung. From these cities, students can easily get a transfer to their schools by bus, metro, train or taxi. Taxis are also available at the airport.

Note

For more information about visa and ARC application, please go to:

Study in Taiwan | www.studyintaiwan.org
Information for Foreigners | iff.immigration.gov.tw
Bureau of Consular Affairs Ministry of Foreign Affairs (BOCA) | www.boca.gov.tw

Entry & Exit

Required Documents

The following documents are needed for visa issuance.

- A completed visitor visa/ resident visa application form
- A valid visitor visa/ resident visa
- A passport valid for at least six months
- A confirmed return air ticket or an air ticket and a visa for the next destination, and a confirmed seat reservation on the departure flight

- Each student is required to show a passport and Alien Resident Certificate to the Customs authorities
- Students should depart before their visa's expiration date

- Each student is required to show a passport and Alien Resident Certificate to Customs authorities
- Students are required to apply for a re-entry permit from the authorities before they leave Taiwan and to show it to Customs officials when they re-enter

Scholarships

Taiwan Scholarship

In 2004, four government agencies of Taiwan, the Ministry of Education (MOE), Ministry of Foreign Affairs (MOFA), Ministry of Economic Affairs (MOEA), and National Science Council of the Executive Yuan (NSC), jointly established the Taiwan Scholarship Program to encourage outstanding international students to undertake degree programs in Taiwan. Details about each of the Taiwan Scholarships are shown below. Some universities offer scholarships. Information about these can be obtained from each university's website.

Application

The application period is from February 1 to March 31, each year, unless individual Taiwan Representative Offices specify otherwise.

For application guidelines and forms, scholarship types and quotas, as well as information about the selection process and outcome announcements, applicants may contact a Taiwan Representative Office directly. ♦ See P.78-P.80 for the contact information of the nearest embassy or representative office. You will need the following documents:

- One copy of the completed application form
- One photocopy of applicant's passport or other nationality certificates
- One photocopy of the highest-level diploma and a complete grade transcript
- Supporting admission application materials
- Additional documents as specified by individual representative offices
- A photocopy of a certificate of the acceptable levels of English proficiency or Test of Chinese as Foreign Language (TOCFL), depending on the language of instruction in class

Let's Apply Taiwan Scholarship!

Various Types of Taiwan Scholarship

Category	Program Title	Contents	Duration

Taiwan Scholarship Program!

The Taiwan International Graduate Program (TIGP) of Academia Sinica

The Taiwan International Graduate Program (TIGP) of Academia Sinica, Taiwan, provides full fellowship support for all fully-matriculated students for 3 years. The stipend is about NTD32,000 (USD1, 050) per month.

Application

All applications for enrollment are due no later than 31 March. Candidates may now apply online, or send all application materials to the TIGP admissions office. You will need the following documents:

- Bachelor and / or Master of Science degree
- English proficiency (TOEFL, or GEPT, or IELTS)
- GRE General test (requirements vary by program)
- GRE Subject test (requirements vary by program)
- Academic transcript for coursework completed beyond the high school level
- Letters of recommendation
- Statement of purpose

Mandarin Language Enrichment Scholarship

To encourage international students and individuals to study Mandarin in Taiwan, the Ministry of Education established the Huayu Enrichment Scholarship Program in 2005. This provides study opportunities in Mandarin language and Taiwanese culture at university/college-affiliated Chinese language centers. A monthly stipend of NTD25,000(USD840) is offered to recipients.

Application

The application period of Taiwan Scholarship and Huayu Enrichment Scholarship (HES) is from February 1 to March 31 each year.

In addition, some Chinese learning centers offer scholarships. Information about these can be obtained from each center's website.

Note

Huayu Enrichment Scholarship (HES)

To encourage international students (Mainland China, Hong Kong, Macao SAR students are not eligible) to undertake short term research or Huayu courses in the Republic of China (Taiwan); in order to provide them with opportunities to increase their understanding of Taiwanese culture and society, and to promote mutual understanding and interactions between Taiwan and the international community, the MOE established the Ministry of Education Huayu Enrichment Scholarship (HES) Program in 2005.

Campus Diary

Let's listen to what international students do on campus!

 **Gambia** | Siaka Fadera

- Degree student
- Health Care Management
- Undergraduate program, 1st year
- National Taipei University of Nursing and Health Sciences

First of all I am very impress about the sophisticated learning materials use in Taiwan and good methods of teaching by various courses professors. I must confess that within my short period of stay here, I have realized a significant difference in terms of learning compare to my home country. I have almost everything I need from text books, laboratory equipments, good lecturer, just to name a few.

I have also experience here that lecturers are always in class and on time, They really respect time. Also the mutual relationship between students and lecturers is cordial.

I have only one problem here which is the long period of lectures, one class can go up to four hours. I usually get bored after three hours of one class. Other than everything is okay with me and I am really enjoying my study here.

- 08:00 I normally wake up at this time of morning, take shower and prepare for the first class of the day.
- 10:00 Leave my room for first class
- 12:10 Breakfast time
I usually take my breakfast around this time of the day because I am not used to early breakfast.
- 13:30 Back to class
- 17:40 Finally close for the day
- 18:00 Lunch time
I have my lunch mostly around this time, relax for a while and prepare for exercise.
- 20:00 Do some exercise at the gym
- 21:00 Take shower and dinner follows. Watch T.V, browse the net and chat with friends.
- 22:00 Time for home works and assignments.
I do all my home works and assignments and have some revision of my previous lessons before going to bed.

 **Philippines** | Julyver Pinaso

- Degree student
- MS Electrical Engineering
- MA program, 2nd Year
- National Taipei University

Graduate study in NTPU is one of the rarest opportunities a foreign student can have. First, the selection is not so stringent but the knowledge and skills that can be acquired is comparable to any university abroad offering the same discipline. The cultural exchange we experienced is another wonderful milestone that builds up our personal outlook.

- 08:30 Off-bed, Shower On and Head for Lab!
Since I usually wake up late, lunch is nearer. To put something on my stomach, I prefer bread and water.
- 09:00 Day Starter and Research
I cannot start my research without first visiting my Journey of Jesus game on facebook for 15 minutes at most. Then research commences.
- 11:30 Lunch time!
I would usually go to my favorite restaurant outside the campus earlier on my bike to avoid long queue for food. Getting back before 12 is also advisable to get rid of the elevator traffic going up to 12th floor with my bike.
- 12:00 Research Starter and the Research
Again, before starting anything, I will pick up what I've left off earlier for another 15 minutes at most. Then research continues!
- 18:30 Dinner with friends!
We used to have exercise prior meal before but now deprioritized as research is more demanding. Going to the restaurant, we walk sparingly to enjoy some chat along the way.
- 20:00 Research continues!
As usual, the starter will not be spared. By the time, the research concluded, the game starter highest level must have been reached. We'll see which one comes first. Sleeping time is past 1am.

4 Living in TAIWAN

- Accommodations
- Living cost
- Services
- Job Opportunities

4

Accommodations

On-campus Accommodation

On-campus undergraduate dormitories are divided based on gender and are open to students all year-round. Typically, four to six students share a room. Usually, pets are not allowed. University students usually wear something casual to class. Coin operated Laundromats can be found inside dormitory buildings. At on-campus dining halls meals cost NTD40-130(USD1-4). Food stalls, cafes and inexpensive restaurants are usually close to campus, typically within 15 minutes walking.

Some campuses have on-campus health centers, which provide medical assistance for minor ailments. Some schools have a post office, a bookstore and a bank on campus. The expenses are about NTD 6,000 to 10,000(USD200-330) per semester.

Off-campus Accommodation

If dormitories are unavailable or you prefer a different living arrangement, off-campus apartments, including studios and flats, are available. Most Chinese learning centers provide information about local rentals on the internet. Depending on the accommodation's type, quality and location, rent ranges from NTD 3,000 to 13,000(USD100-430) per month.

Note

For further information about off-campus accommodation, please go to the Tsuei Ma-Ma Foundation website. www.tmm.org.tw/English/index.html

Living cost

The Taiwan currency is the NTD. The 4 denominations of bills are NTD2,000, NTD 1,000, NTD 500 and NTD 100 while the 6 denominations of coins are NTD 50, NTD 10, NTD 5, and NTD 1. Cash payment is common in Taiwan though many shops do accept credit cards. Checks are not normally used in Taiwan for payment of everyday expenses.

In addition to your tuition fees, your accommodation costs will be your biggest financial burden. It's worth doing research before you arrive on your accommodation options, and better to research the cost of things such as utilities (electricity, gas, water, telephone), public transportation, food and so on. The cost of all things may vary depending on the area you'll be living in.

Daily Goods

Taiwan is well-known as one of the countries with an cheaper cost and high quality of living. The following is a few examples of goods. The cost of all things may vary depending on the area you'll be living in.

Exchange of major currencies can be done at banks handling foreign currency exchange.

Toast (a loaf)

NTD 50 USD 1.67

Gasoline (1L)

NTD 34 USD 1.1

Cabbage (1 kg)

NTD 39 USD 1.3

Movie Ticket

NTD 260 USD 8.67

Rice (2kg)

NTD 120 USD 4

Milk (1800ml)

NTD 150 USD 5

Hamburger

NTD 70 USD 2.3

Coca Cola (600ml plastic bottle)

NTD 30 USD 1

Taxi

NTD 80 USD 2.67

Eggs (10 eggs)

NTD 40 USD 1.33

* (USD 1 NTD 30)

Services

Bank Accounts

Most banks offer foreign currency exchange and bank services in NT dollars. International students can open bank accounts with their passports and ARC cards. Individual who wants to open an account without an ARC card needs to get a universal identification number at the local police office.

Postage

Chunghwa Post, the postal service of Taiwan, provides international and domestic mail services to the public. There are over a thousand branches, distributed all over the island, providing regular and express postal service. International students can apply for a postal box at the nearest branch. Students who receive Taiwan Scholarship need to open an account at a post office Chunghwa Post.

In addition, most convenience stores serve as pick up locations for international and domestic express services.

Insurance

International students with an Alien Resident Certificate (ARC) who have resided in Taiwan for 4 months must enroll in the National Health Insurance (NHI) program at a local administrative office. Before they are eligible for the NHI program, students can purchase their own insurance or participate in a temporary health insurance program offered by the international students' office at their educational institution. The insurance premium has to be paid monthly once registration is completed. The premium is NTD 8,988 (about USD 300) per year. The cost of NHI is included in tuition fee every semester. Once registered with the National Health Insurance, you will only need to pay 30% of the total medical bill.

International students, who enroll in the NHI program, should apply for the NHI IC card. Students can fill in the "NHI IC Card Application Form," and attach a photocopy of your identity document, Mail or bring it in person to a nearby NHI branch office or liaison office. You will need the following documents: application form, passport, ARC, and two one-inch photos.

Note

Further information about National Health Insurance (NHI)

It's a health insurance for all people in Taiwan since 1995. The main goals are to improve patients' access to health care by easing their financial burden and to make sure that no one would be forced into bankruptcy by a serious illness.
www.nhi.gov.tw/english/index.asp

Transportation

By Train

The railway network along the coastline is another economic option for traveling around Taiwan. There are four classes of passenger seats: Tze-chiang, Chu-kuang, Fu-hsing and economy. Traveling by train is recommended on public holidays because it can avoid the hustle and bustle of the long distance highway bus service. Advanced ticket reservations are recommended.

By Air

There are six domestic airlines providing services between major cities such as Taipei, Taichung, Tainan, Kaohsiung and Hualien. Prior reservations are always required.

By Taiwan High Speed Rail (THSR)

If you would like to save time, THSR is another choice. While traveling from Taipei to Kaohsiung takes 5 hours by train and 6 hours by car, the THSR takes only 1.5 hours. Advanced reservations are recommended.

By Motorcycle/Scooter & Bicycle

Motorcycles and scooters are very popular means of transportation. Most universities provide motorcycle/scooter parking around campus for students. Bicycles are widely used within campuses. Bicycle racks can be found throughout campuses.

By Highway Bus

Long distance highway bus services provided by private transportation companies are very popular. They have an extensive network and a frequent service schedule. Tickets are usually competitively priced and some bus companies even provide 24 hour service.

By Passenger Car

In Taiwan, cars are driven on the right. Students with international driver licenses may drive in Taiwan. However, driving is not recommended for those who are unfamiliar with the unique road and traffic conditions in Taiwan. Traffic is heavy and car drivers must watch out for slow-moving pedestrians and bicyclists, fast-moving motorcycles and scooters, as well as other cars, buses and trucks. Drivers have to be extra cautious. International or foreign driver license holders can apply for ROC driver licenses at the local Motor Vehicles Office.

By Metro / Subway

In Taipei and Kaohsiung, the metro system (MRT) provides convenient and comfortable transportation. There are nine major routes in Taipei and two major routes in Kaohsiung, covering different parts of the two cities. Metro fares range from NTD20-60 (USD0.6-2).

By Bus & Taxi

Each major city has its own bus system. Fares are inexpensive and service is frequent. Taxi fares start at NTD 70 (USD 2.3) and increase with the time and distance traveled. It is a good idea to have the name of your hotel or address written in Chinese when you travel by taxi.

Job Opportunities

Insurance

International students who have attended school in Taiwan for two semesters or a language program for one year, and who have an excellent academic record, can work in Taiwan when one of the following applies:

- Events of a serious nature have affected their financial ability to support themselves or continue their education, and the student can provide evidence of such circumstances
- An academic research institution at the student's school requires a foreign student to provide assistance in its work
- The student needs to take part in an off-campus internship related to his or her field of study

Campus Diary

Let's listen to what international students do on campus!

 **Indonesia** | Felix Wibowo Ng

- Degree student
- Construction Engineering and Management (Department of Civil Engineering)
- MA. Program
- National Chiao Tung University

First time I arrived in Taiwan, I feel different with my country. This country looks smaller, but there are so many high-rise building here. That's rare to find a one-floor building in this country. Transportation here is very nice, it's convenient to go everywhere by public transportation such as bus or train, especially in Taipei. People here are very kind, friendly, and courteous. When I asking about way to go somewhere, they even show me the direction and offer me to walk with them. My campus facilities are also very comprehensive and satisfactory. They serve international student nicely. Meals here come in a very big portion, but in my opinion Indonesian food is spicier compared to Taiwanese food.

- | | |
|--|--|
| 08:00 Breakfast and take a shower!
I always eat my breakfast before taking my morning class, It's provides me some amount of energy to be more focus on my morning class. | 13:20 Managerial Statistics discussion
This is the time to ask the teaching assistant of MS class about the material that I still don't understand. |
| 10:10 Intermediate Chinese Conversation II.
Very interesting lecture. I'm in love to learn Chinese, especially practicing speaking Chinese with people. | 15:30 Review Chinese class
17:30 Dinner time
19:30 Work out
21:00 Study time!
23:00 Have a chat |
| 12:00 Lunch time! | 23:00 Bedtime |

 **Japan** | Kei Utsunomiya

- Degree student
- Political Science
- PhD program
- National Taiwan University

Taiwan conserves the most traditional Chinese culture and value. At the same time, Taiwan is one of the most globalized countries because she is just located in the center of East Asia. In addition, my university has the world's leading professors and academic research environment. I can discuss provocative subject freely with my classmates under such a circumstance, then develop international perspective and creative mind necessary for future. Contact with pure-hearted Taiwanese people and Taiwanese nice meal add color to my regular life in Taiwan^^

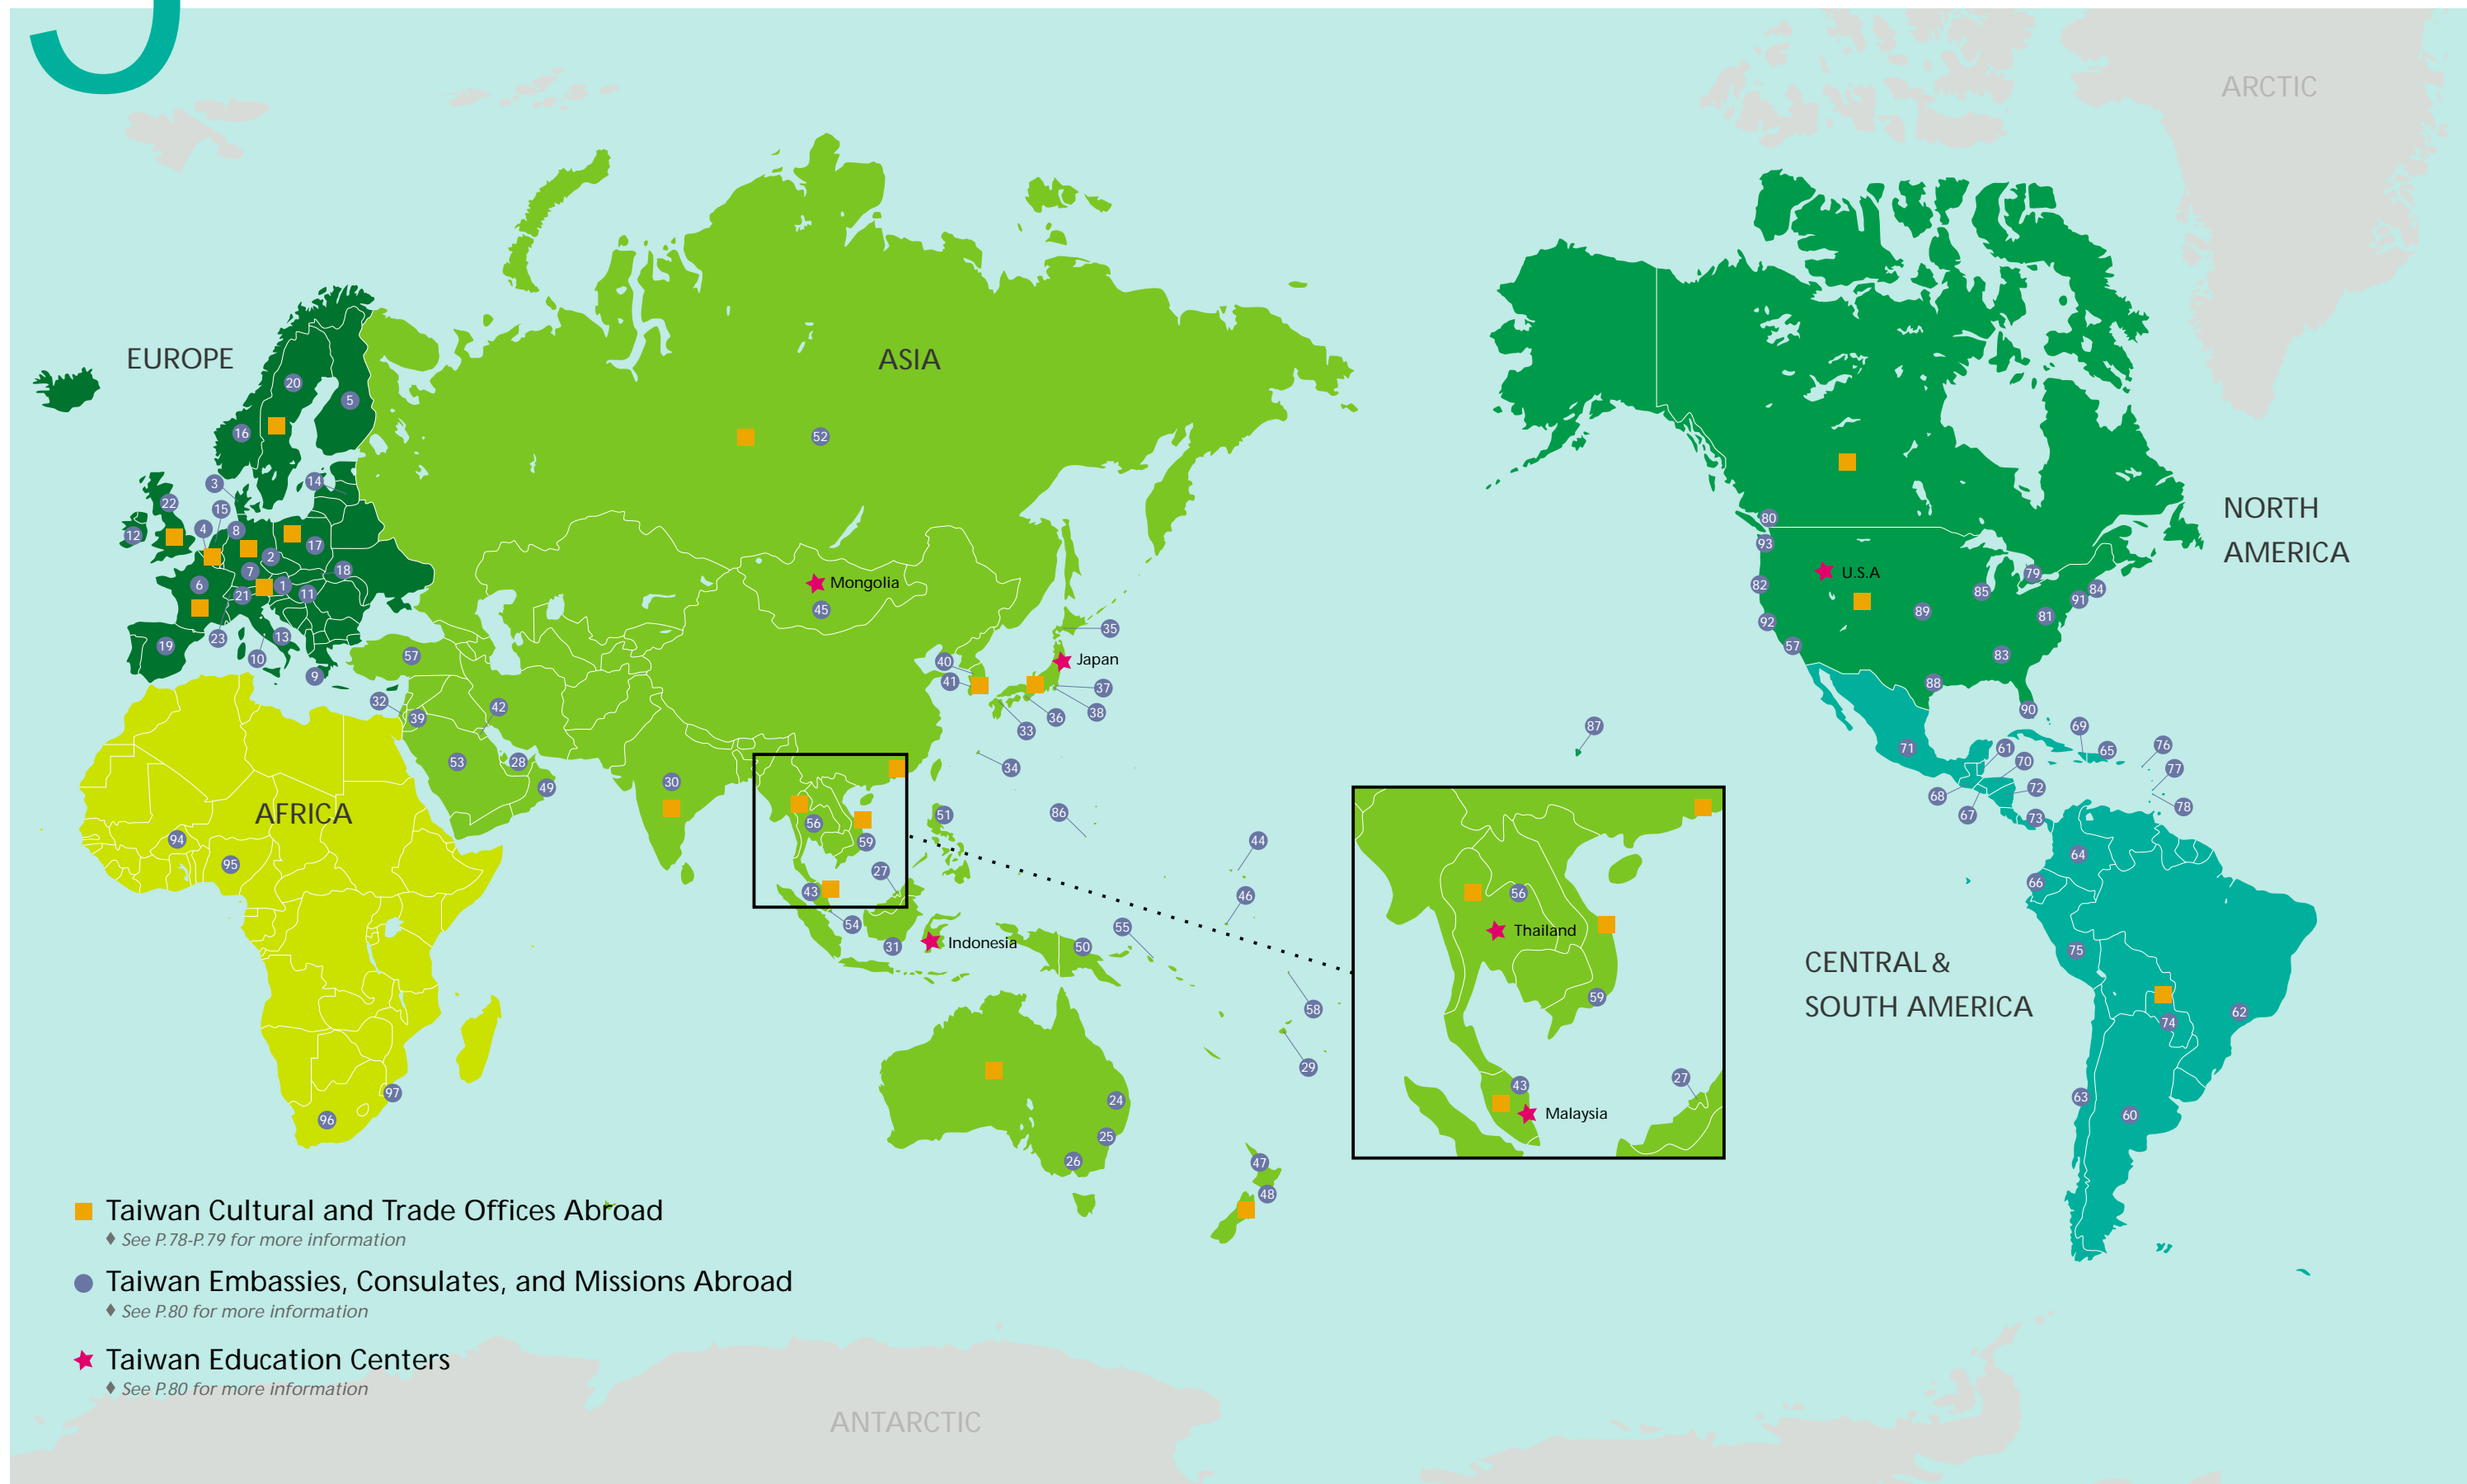

- 07:00 Wake up and Breakfast.
Wake up, and check internet news of English, Chinese and Japanese, while eating my breakfast.
- 10:20 Seminar on International Relations of Southeast Asia
I'm really enjoying classes at NTU because we can discuss hot issues with world-class professors.
- 12:10 Lunch time
Enjoying Taiwanese wonderful meal and Exchanging information on current international circumstances with a friend working at government.
- 13:30 Advance one's own research
Write Ph.D dissertation and Conference Paper, also promote the project received research grant. At the same time, check newspaper and latest journal article...
- 16:00 Meeting with my Professor.
- 20:00 Reading books
Read books of fields outside my specialty and enrich my view of this society.
- 24:00 Bedtime

Test of Chinese as a Foreign Language (TOCFL)

Organization Introduction

The Steering Committee for the Test Of Proficiency-Huayu (SC-TOP) was established in November 2005 under the direction of the Ministry of Education of R.O.C. Originally “Chinese Language Testing Center” and renamed in January, 2007, the Committee aims to develop and promote an effective Chinese assessment system, mainly the Test of Chinese as a Foreign Language (TOCFL), for Chinese learners worldwide to assess their Chinese proficiency.

Test Introduction

TOCFL is a foreign language proficiency test for non-native speakers of Chinese. Those who wish to know about their level of Chinese proficiency, or those who want to study, work or do business in Chinese speaking countries are welcome to register for the test.

TOCFL is administrated in four levels, For Beginners, Basic, Intermediate, and Advanced.

For the Basic, Intermediate and Advanced levels of TOCFL, each level has three sections, including listening, vocabulary and grammar, and reading. The total number of test items is 100, and the total testing time is 110 minutes.

The For Beginners level of TOCFL measures both listening and reading skills of non-native Chinese speakers at the beginning level. The first test was administrated in Nov. 2007. The total number of test items is 80, and the total testing time is 80 minutes.

TOCFL is given in multiple-choice items. Test takers get one point for each correct answer. There is no penalty deduction for the incorrect answer.

Target Test Taker

The TOCFL for Advanced level is designed for:

- non-native speakers of Chinese.
- test takers who have taken 960 hours of Chinese courses in Taiwan or 1920 hours in countries and areas other than Taiwan.
- test takers who have acquired a vocabulary base of 8000 words.

Test Content

The authentic materials used in the TOCFL are extracted from materials in daily life, such as advertisements, public announcements, notices, letters, memos, time schedules, and weather broadcasts. In addition, these diversified texts are derived from a variety of fields, including literature, science, art, astronomy, and history.

Foreign language proficiency test!

Level

Learning Hours (in Taiwan)

- For Beginners | At least 240 hours
- Basic | 360-480 hours
- Intermediate | 480-960 hours
- Advanced | More than 960 hours

Learning Hours (in other area)

- For Beginners | At least 480 hours
- Basic | 720-960 hours
- Intermediate | 960-1920 hours
- Advanced | More than 1920 hours

Vocabulary Base

- For Beginners | 800 words
- Basic | 1500 words
- Intermediate | 5000 words
- Advanced | 8000 words

◆ Note: The total Chinese course hours required for overseas Chinese learner need to be doubled.

Test Format

The content of the test in general focuses on everyday speech incorporated in various situations.

For Beginners

The test measures both listening and reading skills of non-native Chinese speakers at the beginning level. The total testing time is 80 minutes. The test consists of 80 multiple-choice questions in two sections: Listening Comprehension (Description; Matching; Dialogue; Conversation) and Reading Comprehension (Sentence; Picture; Blank Filling; Passage).

Basic/ Intermediate/ Advanced

The testing time for the Basic, Intermediate, Advanced Level is 110 minutes. The tests consist of 100 multiple-choice questions in two sections: Listening Comprehension and Reading Comprehension.

Purpose of the TOCFL

TOCFL test takers who passed the requirement of TOCFL will receive certificate. The certificate can serve as a Chinese proficiency credential for:

- Applying for the “Taiwan Scholarship”.
- Applying for the academic programs at colleges or universities in Taiwan.
- Serving as a reference of Chinese subject for University Entrance Committee for Overseas Chinese Students.
- Serving as a job-required proof of Chinese language proficiency.

The certificate of TOCFL can be used as an official document when applying for admission to undergraduate and graduate programs in Taiwan. Also, many international businesses, such as LG, adopt TOCFL as reference for their employee dispatch programs in Taiwan.

TOCFL Testing Overseas

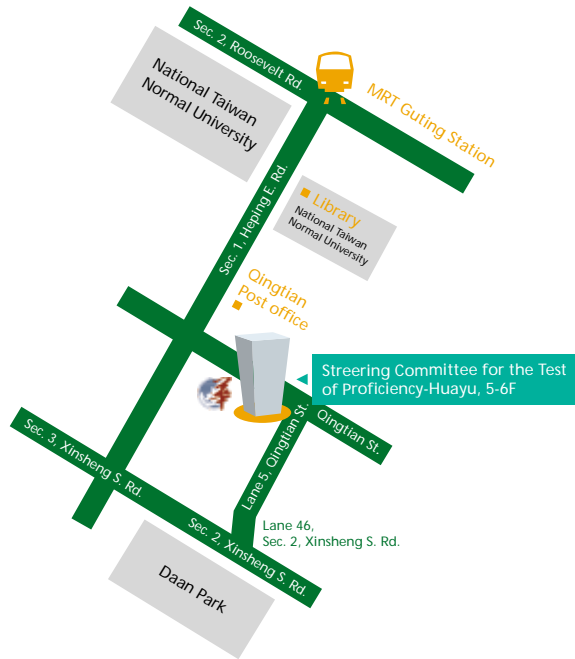

To meet the demand of numerous international Chinese learners, the SC-TOP has started to provide overseas test services since 2006. Candidates can now choose to take the TOCFL test in Japan, Korea, Thailand, Vietnam, USA, UK, and France. Also, the SC-TOP plans to increase test locations annually. For more information, please contact your local Cultural Division of Taipei Economic Cultural Office.
